

ALX 3138

ALS[®]

Performance Print & Apply System

"24 Hour, 7 Days a Week Reliability"

**Unbeatable Speed & Performance,
Coupled with the Best in User-Friendliness.**

The ALX 3138 is a high performance 1:1 print & apply system for a wide range of industrial applications.

Batch numbers, barcodes, date of manufacture, product descriptions, graphics - the amount and complexity of variable information on products and packaging is increasing all the time. The need for quicker processing, faster printing and more reliable print & apply systems grows rapidly.

Designed to exceed all current and future expectations, the ALX 3138 offers the very best in performance and build quality on the market today.

WORLD CLASS LABELLING SOLUTIONS

ALX 3138

SPECIFICATION

Description:

The ALX 3138 Print & Apply label applicator uses a thermal transfer print engine to over-print variable text, graphic or barcode information onto labels and apply them utilising tamp-blow, air-blow or direct ("wipe-on") application techniques.

A large variety of print sizes, plus capabilities for printing barcodes, real-time data and sequential numbers on the same label, are standard features.

One-to-one print and apply allows for the immediate application of each label as it is printed.

The ALX 3138's rugged corrosion resistant, stainless steel and anodised aluminium housing provides durability and maintenance-free operation even in hostile environments.

Technical Specifications:

Dimensions:	592mm (H) x 650mm (W) x 728mm (L)
Weight:	75kg
Label Dimensions:	Label Width: Up to 183mm Label Length: Up to 200mm
Print Area:	Printer dependent
Label Packaging:	305mm O.D. rolls maximum on 76mm I.D.cores Up to 432mm rolls with powered unwind
Dispense Speed:	Up to 400mm per second
Label Placement Accuracy:	Up to +/- 0.8mm
Electrical:	220 volts AC, 50Hz, 3 Amps
Air (as needed):	4cfm at 90psi – performance & label size dependent
Print Engines Available:	Sato, Zebra, Datamax, Novexx
Specifications:	Dependent upon printer and label size
CE Certified:	Yes

ABOUT ALS

ALS is a leading European supplier with more than 25 years experience in supplying high quality, competitively priced labelling systems, consumables and accessories.

In addition to the ALX 3138, the company offers a comprehensive range of label applicators, print & apply systems and thermal transfer printers, to meet labelling requirements across an extensive range of industries and applications.
